

## INDEX TO VOL. XIV.

### A

- ABSORPTION from liver, 252.  
 Adrenalin, action on cerebral vessels, 452.  
 ALSBERG, C., and O. FOLIN. Protein metabolism in cystinuria, 54.  
 Anæsthesia from magnesium salts, 366.  
 AUER, J. See MELTZER and AUER, 366.  
 Auscultation of stomach and intestines, 339.

### B

- BEEBE, S. P., and B. H. BUXTON. Some new laboratory apparatus, 7.  
 BEEBE, S. P., and P. SHAFFER. The chemistry of malignant growths. IV.—The pentose content of tumors, 231.  
 BEERS, W. H. See STILES and BEERS, 133.  
 Blood, electrical conductivity during coagulation, 466.  
 Blood pressure affected by bone marrow, 328.  
 Bone marrow, action on blood pressure, 328.  
 BRADLEY, H. C. See MENDEL and BRADLEY, 313.  
 BROWN, O. H. The permeability of the membrane of the egg of *Fundulus heteroclitus*, 354.  
 BROWN, O. H., and C. C. GUTHRIE. The effects of intravenous injections of bone marrow extracts upon blood pressure, 328.  
 BUXTON, B. H. See BEEBE and BUXTON, 7.

### C

- CAGE for animals, 403.  
 CANNON, W. B. Auscultation of the rhythmic sounds produced by the stomach and intestines, 339.  
 Carbohydrate metabolism, 12.  
 Carbohydrates utilized without digestion, 239.  
 Cardiac nerves in molluscs, 16.

### C

- CARLSON, A. J. Comparative physiology of the invertebrate heart. Part III.—Physiology of the cardiac nerves in molluscs (*continued*), 16.  
 Catalase, 299.  
 Catalysis of hydrogen dioxide, 248.  
 Centrifuge, 8.  
 Cerebral vessels, constricted by adrenalin, 452.  
 Cilia, reversal of, 1.  
 Circulation in the cerebrum, 452.  
 Circulation, mass-movements, 287.  
 CLOWES, G. H. A., and W. S. FRISBIE. On the relationship between the rate of growth, age, and potassium and calcium content of mouse tumors (adenocarcinoma, Jensen), 173.  
 COBB, P. W. Some observations on the carbohydrate metabolism in partially depancreated dogs, 12.  
 Colloids, precipitation, 203.  
 CROFUTT, E. F. See HENDERSON and CROFUTT, 193.  
 Cystinuria, 54.

### D

- DRYING apparatus, 9.

### E

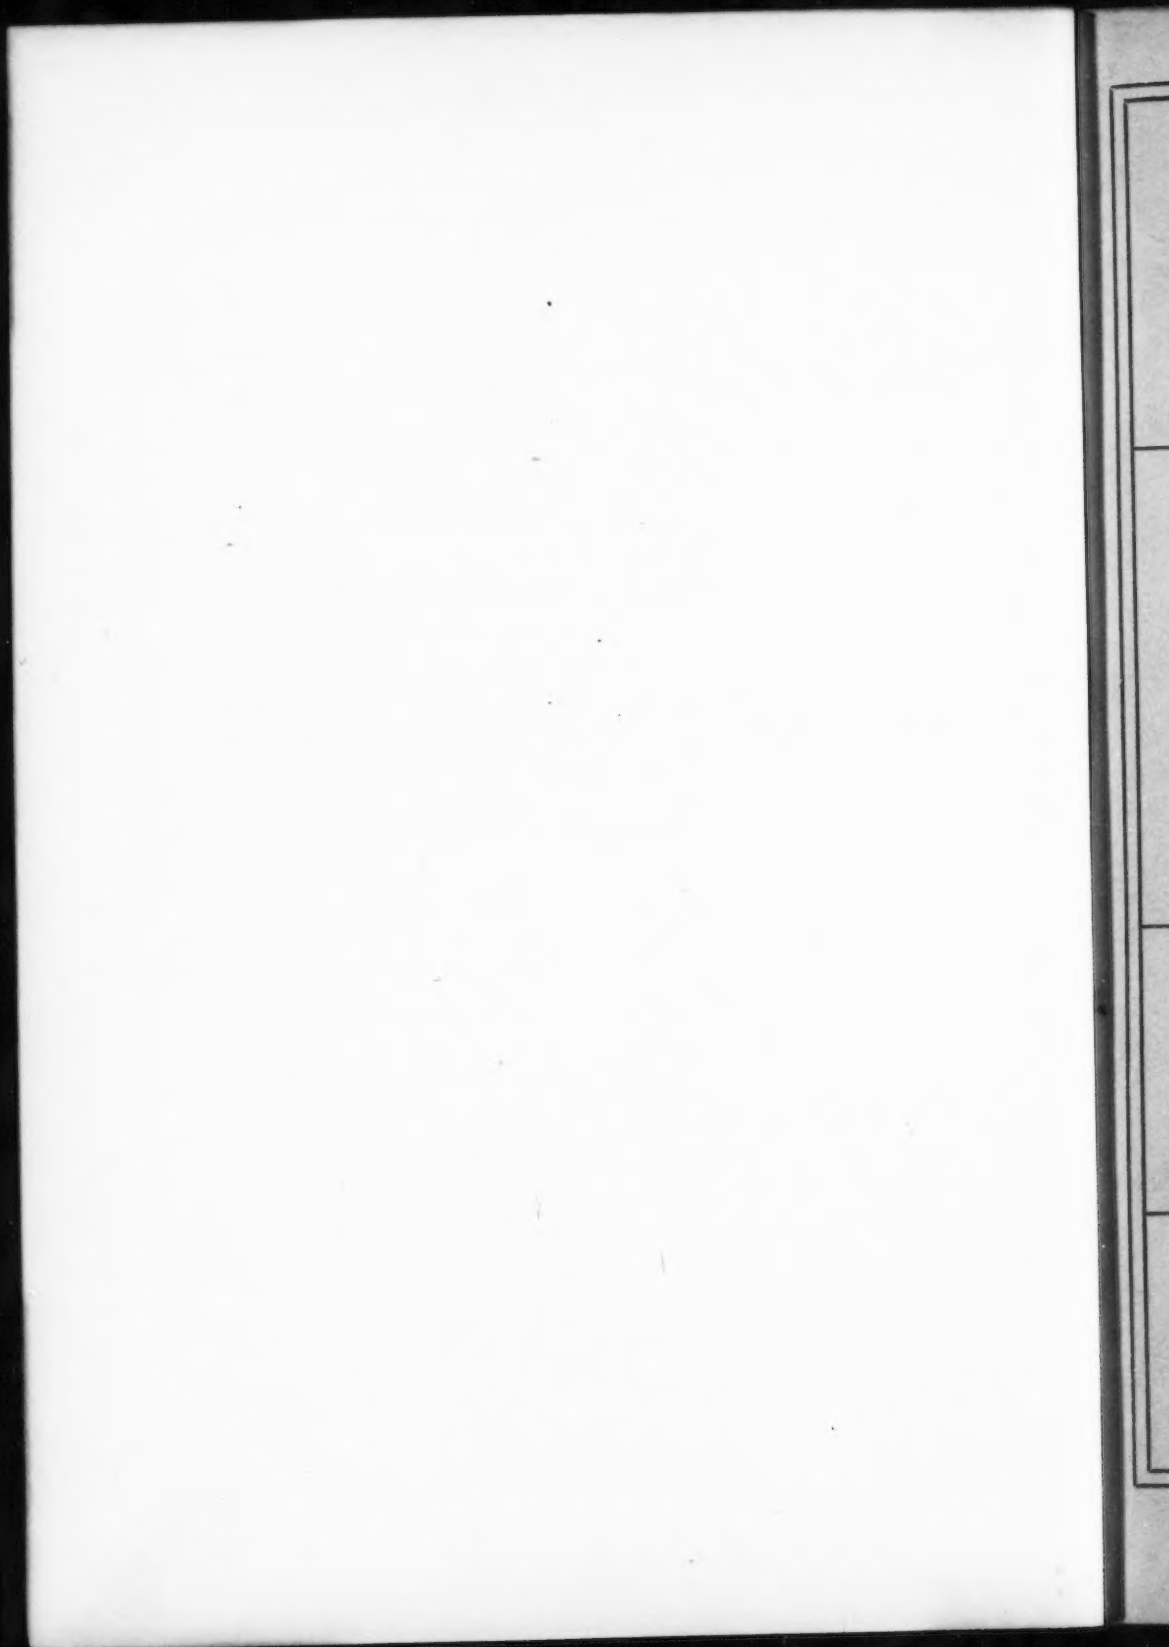

- EGG membrane, permeability, 354.  
 Electric water bath, 10.  
 Enzymes, 299.

### F

- FISHES, stimulation of integumentary nerves, 413.  
 FOLIN, O. See ALSBERG and FOLIN, 54.  
 FRANK, R. T. A note on the electric conductivity of blood during coagulation, 466.  
 FRISBIE, W. S. See CLOWES and FRISBIE, 173.

- G**EOTROPISM in Paramœcium, 421.
- GIES, W. J. An improved cage for metabolism experiments, 403.
- Globulin, solubility in salt solution, 151.
- Glycogen, transformation into dextrose, 105.
- GOLDTHWAIT, J. E., C. F. PAINTER, and R. B. OSGOOD and F. H. MCCRUDDEN. A study of the metabolism in osteomalacia, 389.
- GUENTHER, A. E. A study of the comparative effects of solutions of potassium, sodium, and calcium chlorides on skeletal and heart muscle, 73.
- GUTHRIE, C. C. See BROWN and GUTHRIE, 328.
- H**ARRIS, I. F. See OSBORNE, MENDEL, and HARRIS, 259.
- HARRIS, I. F. See OSBORNE and HARRIS, 151.
- HATAI, S. The excretion of nitrogen by the white rat as affected by age and body weight, 120.
- Heart, invertebrate, 16.
- Heart muscle, affected by chlorides, 73.
- Heart rhythm, affected by sodium chloride, 433.
- HENDERSON, Y. The mass-movements of the circulation as shown by a recoil curve, 287.
- HENDERSON, Y., and E. F. CROFUTT. Observations on the fate of oil injected subcutaneously, 193.
- I**ONIC effects masked by organic substances, 133.
- Ions of sodium and lithium in skeletal muscle, 359.
- L**INGLE, D. J. Restorers of the cardiac rhythm, 433.
- Liver, absorption from, 252.
- LYON, E. P. On the theory of geotropism in paramœcium, 421.
- M**AGNESIUM salts produce anesthesia, 366.
- MATHEWS, A. P. The nature of chemical and electrical stimulation. II.—The tension coefficient of salts and the precipitation of colloids by electrolytes, 203.
- MCCRUDDEN, F. H. See GOLDTHWAIT, PAINTER, OSGOOD, and MCCRUDDEN, 389.
- MEIGS, E. B. A mechanical theory of muscular contraction and some new facts supporting it, 138.
- MELTZER, S. J., and J. AUER. Physiological and pharmacological studies of magnesium salts. I.—General anesthesia by subcutaneous injections, 366.
- MENDEL, L. B., and H. C. BRADLEY. Experimental studies on the physiology of the molluscs—second paper, 313.
- MENDEL, L. B., and P. H. MITCHELL. On the utilization of various carbohydrates without intervention of the alimentary digestive processes, 239.
- MENDEL, L. B. See OSBORNE, MENDEL, and HARRIS, 259.
- MENDEL, L. B., and F. P. UNDERHILL. On the paths of absorption from the liver, 252.
- Metabolism cage, 403.
- Metabolism of carbohydrates, 12.
- Metabolism in cystinuria, 54.
- Metabolism in osteomalacia, 389.
- Metabolism, proteid, 120.
- MILLIKEN, C. S., and P. G. STILES. On the supposed equivalence of sodium and lithium ions in skeletal muscle, 359.
- MITCHELL, P. H. See MENDEL and MITCHELL, 239.
- Molluscs, physiology of, 313.
- Mouse tumors, relation to potassium and calcium content, 173.
- Muscle, affected by chlorides, 73.
- Muscle, affected by ions, 359.
- Muscle, mechanical theory of contraction, 138.
- N**EILSON, C. H., and O. P. TERRY. The effect of certain salts and dextrose on the rate of transformation of glycogen into dextrose, 105.
- NEILSON, C. H., and O. P. TERRY. The effect of hypnotics and antipyretics on the rate of catalysis of hydrogen dioxide by kidney extract, 248.
- Nerve impulse, propagation of, 112.
- Nitrogen excretion in white rat, 120.
- O**IL, fate when injected subcutaneously, 193.
- OSBORNE, T. B., and I. F. HARRIS. The solubility of globulin in salt solution, 151.
- OSBORNE, T. B., L. B. MENDEL, and I. F. HARRIS. A study of the proteins of the castor bean, with special reference to the isolation of ricin, 259.

- OSGOOD, R. B. See GOLDTHWAIT, PAINTER, OSGOOD, and MCCRUDDEN, 389.  
Osteomalacia, metabolism in, 389.
- P**AINTER, C. F. See GOLDTHWAIT, PAINTER, OSGOOD, and MCCRUDDEN, 389.  
Pancreas, relation to metabolism, 12.  
Paramœcium, geotropism in, 421.  
PARKER, G. H. The reversal of the effective stroke of the labial cilia of sea-anemones by organic substances, 1.  
PARKER, G. H. The stimulation of the integumentary nerves of fishes by light, 413.  
Permeability of fundulus egg, 354.  
Proteids of castor bean, 259.  
Protein metabolism, 54.
- R**ECOIL curve, 287.  
Ricin, 259.
- S**ALTS, tension coefficient, 203.  
SHAFFER, P. Some observations on the enzyme catalase, 299.
- SHAFFER, P. See BEEBE and SHAFFER, 231.  
Skin nerves in fishes, 413.  
STILES, P. G., and W. H. BEERS. On the masking of familiar ionic effects by organic substances in solutions, 133.  
STILES, P. G. See MILLIKEN and STILES, 359.  
Stimulation, theory of, 203.  
SUTHERLAND, W. The nature of the propagation of nerve impulse, 112.
- T**ERRY, O. P. See NEILSON and TERRY, 105, 248.  
Tumors, pentose content, 231.
- U**NDERHILL, F. P. See MENDEL and UNDERHILL, 252.
- V**ASO-MOTOR nerves of cerebrum, 452.
- W**IGGERS, C. J. On the action of adrenalin on the cerebral vessels, 452.

## CONTENTS.

A STUDY OF THE METABOLISM IN OSTEOMALACIA. <i>By J. E. Goldthwait, C. F. Painter, and R. B. Osgood and F. H. McCrudden . .</i>	389
AN IMPROVED CAGE FOR METABOLISM EXPERIMENTS. <i>By William J. Gies . . . . .</i>	403
THE STIMULATION OF THE INTEGUMENTARY NERVES OF FISHES BY LIGHT. <i>By G. H. Parker . . . . .</i>	413
ON THE THEORY OF GEOTROPISM IN PARAMOECIUM. <i>By E. P. Lyon</i>	421
RESTORERS OF THE CARDIAC RHYTHM. <i>By D. J. Lingle . . . . .</i>	433
ON THE ACTION OF ADRENALIN ON THE CEREBRAL VESSELS. <i>By Carl J. Wiggers . . . . .</i>	452
A NOTE ON THE ELECTRIC CONDUCTIVITY OF BLOOD DURING COAGULATION. <i>By Robert T. Frank . . . . .</i>	466

---

THE AMERICAN JOURNAL OF PHYSIOLOGY is issued monthly. Each volume will contain about five hundred pages. The price of one volume sent postage free to subscribers in the United States and Canada is five dollars; to subscribers in other countries, five dollars and twenty-five cents (£1 2s. 6d.; marks, 22; francs, 27). The price of Volumes One, Two, and Three will be six dollars to domestic subscribers, and six dollars and twenty-five cents to foreign subscribers. All subscriptions are payable in advance.

---

Subscriptions, manuscript, and all other communications should be sent to Dr. W. T. PORTER, 688 Boylston Street, Boston, Mass., U.S.A.

---

Contributors will receive fifty copies of their papers free; additional copies may be obtained at cost.

---

*The American Journal of Physiology is represented:*

In America, by GINN & COMPANY, 29 Beacon Street, Boston, Mass.

In Germany, by R. FRIEDLÄNDER & SOHN, Berlin, N.W., Carlstrasse 11.

---

Copyright, 1905, by GINN & COMPANY.

---

Printed by John Wilson and Son, at The University Press, Cambridge, Mass.  
Entered at the Boston, Mass., Post-Office as second-class mail matter, Feb. 11, 1903.
